FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and nert ally sale in its operation. This has oven prepared to meet that demand, and an exteneffective pursative pill which could be relical of as sure and nore thy sale it, its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it account is see the purpose designed. It is easy to make a physical poll, but not easy to make the best of all polls—one which should have more of the object ours, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowers. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterendance the good to be derived from them. These polls produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judichously. Min its directions for their use in the several diseases to which they are pphicable are given in the tox. Among the compliants which have been speedly cared by them, we may mention Liver Compaint, in its various forms of Jaundice, Italigostam, Languor and Loss of Appetite, Listhessness, Irritability, Bi ions Headache, Binous Fever, Fever and Acre, Pain in the Side and Louis; for, in trith, all these are but the consequence of diseased action in the Tver.
